

Help your people *practice* the Gospel conversation, then share it.

Share the Bridge is a free app for churches, schools and ministries. Your people rehearse real conversations with AI practice partners, then walk a friend through the Bridge illustration step by step, with animation and narration.

1

Practice

Talk it through with AI personas: a skeptic, a seeker, an atheist, or someone of another faith. Go at your own pace, with no audience.

2

Present

An interactive, narrated Bridge illustration. Draw on it as you talk, in person or on a video call.

3

Prepare

A question bank, verses and a resource library for the questions people actually ask, plus notes for your own words.

Ways leaders use it

- **Youth groups:** a 60-minute "practice night" (guide included)
- **Bible classes and chapel:** one session on clearly explaining the Gospel
- **Small groups and outreach teams:** practice in pairs before an outreach
- **Individuals:** confidence for everyday conversations

Good to know

- Free on iPhone and on the web at **sharethebridge.app**
- Works on a projector or TV for group demos

Try it with your group this month
